## Objective

---

Detail-oriented Full-Stack Developer with hands-on experience building AI-powered web applications, REST APIs, and responsive interfaces. Currently interning at AI Sentinels (AI detection platform) while completing a Bachelor of IT (Level 7) at Otago Polytechnic. Proven ability to deliver end-to-end features using React, Python, FastAPI, and cloud services. Looking to bring technical skills and a strong work ethic to a junior developer role in a collaborative team.

## Project and Experiences

---

**AI Sentinels Ltd** – Remote / Auckland, New Zealand  
6 months (ongoing)

### Role

**Full-Stack Developer Intern** (December 2025 – Present)

Full-stack development for an AI detection SaaS platform covering text, image, and audio analysis

#### Key Achievements:

- ✓ Developing backend detection services in Python/FastAPI that process AI-generated text, image, and audio content
- ✓ Integrating third-party AI APIs (AWS Bedrock, HuggingFace, OpenAI) into a unified REST API layer for multi-model detection
- ✓ Building interactive dashboards and detection results pages in React/Next.js with TailwindCSS for the client-facing platform
- ✓ Designing database schemas and writing queries to support user management, subscription logic, and detection history
- ✓ Collaborating with data science engineers to test, evaluate, and deploy AI detection models into production pipelines
- ✓ Assisting with cloud deployment via AWS (S3, Lambda, API Gateway) and Docker containerisation for scalable services
- ✓ Participating in sprint planning, code reviews, and pull request workflows within an agile development team

**TechnoGuide Infosoft** - Anand City, India  
1 year and 4 months

### Role

**Front-End Development Intern** (April 2022 – August 2023)

Front-end development and UI implementation

#### Key Achievements:

- ✓ Developed and delivered multiple client-facing static websites using HTML and CSS, meeting design specifications and deadlines
- ✓ Translated Figma mockups into pixel-accurate, responsive UI layouts, strengthening front-end development skills
- ✓ Recognised by supervisors for rapid onboarding, consistent output, and initiative in taking on additional tasks

### Projects

**Preloved – Second-Hand Marketplace (React, Firebase)**

- ✓ Designed and developed a full-stack marketplace web app enabling users to buy and sell second-hand goods with role-based dashboards.
- ✓ Managed source code on GitHub with branches and pull requests while collaborating

in Agile methodology using a Kanban board for task tracking.

- ✓ Implemented secure user authentication, real-time messaging with product context, and Fire store-integrated chat notifications.
- ✓ Led UI development using React, Bootstrap and Tailwind to ensure a responsive, professional design with complete CRUD features.

### Sports Club Management Website

- ✓ Developed a responsive full-stack website using HTML, CSS, and SQLite to track campus sports events and memberships
- ✓ Built user registration with SQLite-backed data storage and streamlined club activity management

### Shipping Management System

- ✓ Architected a C# desktop application with JSON-based persistent data handling
- ✓ Implemented full CRUD operations for customers, orders, and shipment tracking
- ✓ Designed the UI in Figma and built it with Windows Forms, focusing on usability and clean navigation

**McDonald's Restaurants** – 192 Balmoral Road, Balmoral, Auckland City, New Zealand  
1 year and 3 months

**Role**      **Shift Manager** (April 2024 – Present)  
Supervise crew and maintain QSC standards

#### Key Achievements:

- ✓ Maintained QSC (Quality, Service, Cleanliness) standards across daily operations, consistently meeting audit benchmarks
- ✓ Trained and onboarded new crew members across multiple shifts, reducing ramp-up time and improving team performance
- ✓ Led high-volume shifts by delegating tasks across crew, resolving bottlenecks, and ensuring smooth front-to-back operations

## Education

---

**Bachelor of Information Technology - Level 7**  
**Otago Polytechnic Auckland International Campus** – Auckland City, New Zealand  
January 2024 - Present

**Senior Secondary - 12<sup>th</sup> Grade**  
**Knowledge Highschool** – Anand City, Gujarat, India  
January 2021 – March 2022

**Secondary School - 10<sup>th</sup> Grade**  
**St Xavier English Medium School** – Anand City, Gujarat, India  
January 2019 – March 2020

## Skills & Achievements

---

|                                  |   |
|----------------------------------|---|
| <b>Programming Languages</b>     | C#, Python, SQL, Java   |
| <b>Frameworks &amp; Frontend</b> | JavaScript, HTML, CSS, React, Next.js, TailwindCSS, Bootstrap                   |
| <b>Tools &amp; Utilities</b>     | Visual Studio, VS Code, Git, GitHub, Figma, Docker, FastAPI, Firebase, AWS (S3, |

**Networking & Cloud  
Professional Skills**

Lambda)  
Cisco Network Fundamentals, REST API Design, Cloud Services (AWS)  
Agile/Kanban methodology, cross-functional team collaboration  
REST API design, debugging, and problem-solving  
Adaptable across remote and on-site work environments

**Certifications**

**Internship Completion Certificate**  
**TechnoGuide InfoSoft** – Anand City, India

Recognised for successful completion of a 16-month full-time internship focused on front-end development, UI implementation, and client website delivery.
